#### DAVID H. FENTON DEAD CONDITION OF CONEN

WHILE IN AMBULANCE.

The arrangements for the funeral of the late David H. Fenton, member of the law firm of Douglass & Douglass of this city and leader of the republican minority in Maryland, who died last evening in Garfield Hospital ambulance of heart disease, will not be completed until relatives who reside in Indiana and Canada who have been communicated with by telegraph are heard from. Mr. Fenton had been very busy of late in connection with the railroad investigation committee selected by the Maryland legislature. When he came here on Saturday evening he commented upon the Lat of his arduous duties. He was in good health last evening. After

dinner at the Chapin apartment house on Chapin street, where the family reside, Mrs. Fenton announced his intention of going to church. Her husband assisted her to the car. Later he called upon a friend who conducts a drug store at 7th street and Florida avenue. After a pleasant evening Mr. Fenton left for his home. It is supposed that Mr. Fenton after leaving his friends boarded the car and

left it at 14th and Chapin streets, and after passing his residence continued toward 15th street. As he neared the residence of Mrs. Moore, 2533 15th street, she was standing in her front yard and Mr. Fenton asked her, it was stated this mornfrenton asked her, it was stated this morning, where a certain party lived in the neighborhood. She had just answered when Mr. Fenton seemed to become ill and, lurching forward, fell to the ground.

Ambulance Summoned.

Mrs. Moore hurried to his aid. At the time he was breathing very heavily and seemed to have been stricken with heart After a few moments Mrs. Moore's husband arrived, and noticing the dangerous condition of the sick man immediately summoned a policeman, who called the ambulance from Garfield Hospital. Those who were standing about the am-bulance when the sick man was placed into it were of the opinion that he was near death and, as was expected, he passed away before the ambulance reached the

When Mrs. Fenton was apprised of the fact of her husband's death she was overcome with grief and is very ill at her apartment. Immediately after the death of Mr. Fenton Coroner Nevitt was notified, viewed the remains and gave a certificate of death from heart failure. The body was removed

Mr. Fenton was forty-two years of age and was born in Canada. He moved to In-diana and early evinced a love for politics. Shortly after he entered the political world he was elected clerk of the state senate of Indiana. During the administration of President Cleveland he was appointed to a clerkship in the Post Office Department, and after a speedy recognition of his abli-ity he was made the chief of the money order division. For the last year he has been a member of the law firm of Douglass & Douglass. He maintained a residence in Kensington, Md., and was elected a member of the house of delegates of that state at the election of 1905. His wife and two daughters, one six and the other twelve years of age, survive him. He was commander of Columbia Commandery, K. T. of this city, his term expiring next month.

Announced in Court,

The company came ast last week, and while on the way Mrs. Doyle mailed a letter at Cincinnati to her husband. It was found in a pocket of the clothing after the remains had been taken to the morgue. The wife expressed herself as being pleased at his success in securing vice. The employment referred to in the letter was a position as an assistant to the property man at the Majestic Theater Doyle was well known about some of the local theaters. About a month ago he obained employment at the Majestic Theater, and evidently sent his wife a message tell-ing her of that fact. When he called at the boarding house last evening 27 cents was all the money he had, and was handed over to the proprietress. Then he was assisted to his room, with the result stated. Capt. Boardman sent a message to the wife, tell-ing her of the death, and Acting Coroner Glazebrook gave the necessary certificate of death, deeming an inquest unnecessary.

Elephant in Court. Special Cablegram to The Star.

DUBLIN, March 24.-An elephant apseared in the yard of the Dublin law courts his week. The master of the rolls was told that he was there for the purpose of being in readiness to go into the court to defend his reputation. The claim was made to the Star Theater of Varieties that the elephant was a wild beast and dangerous and that he ought not to be allowed to ful-fill an engagement and to perform at the Theater Royal. The elephant's friends set up the defense that it could be taken for granted that the elephant was quiet, inas-much as it had carried the king on its back some years ago when his majesty was Prince of Wales. An injunction to restrain the elephant from appearing at the theater was accordingly refused.

TAKEN ILL SUDDENLY, EXPIRED INJURED BANDSMAN NOT AP-PREHENSIVE OF DEATH.

Assistant United States Attorney Harvey Given has returned from Louisville, Ky., without having secured the deposition of the house of delegates of the legislature of last September by Mrs. O. J. May, and whose critical condition, giving rise to the belief that he was near death, was the occasion of Mr. Given's visit. The ante-mortem statement was not taken for the same reason that has existed heretofore, that of a lack of belief on the part of the injured man of the imminence of dissolution. While Mr. Given was in Louisville Conen was in;a very low state, but he showed remarkable vital ity, soon rallying. Before the assistant United States attorney left yesterday morning to return here the patient was able to talk cheerfully, even going so far as-to say that he might, after all, appear in Wash-ington as a witness in the event of a trial growing out of the shooting. Conen in-formed Mr. Given that he was not apprehensive of an early death. His attending physician also was not at all sure that the physician also was not at all sure that the life of the injured man might not be protracted for a considerable period. The deposition, therefore, could not be taken, as, in order to be legally valid, an ante-mortem statement must be made, it is pointed out; under the belief of impending death.

Conen's case. Mr. Given found, is regarded as phenomenal by the members of the medical profession in Louisville. Though the man has been in a sentic condition sev-

the man has been in a septic condition several days, his heart power has kept up to a remarkable degree. Ever since he received the pistol wound which resulted in the paralysis of the entire lower portion of his body, the strength of his heart has continued unusually good for a man in his condi-tion. To this fact is ascribed in a large measure his successful battle thus far against death.

#### SIDE-WIPE" COLLISION

FIREMAN INJURED IN ACCIDENT NEAR PATUXENT STATION.

A "side-wipe" accident on the Pennsylvania railroad near Patuxent station occurred this morning shortly before 6 o'clock, the fireman on one of the engines, D. E. Carlin, sustaining a fracture of one leg. Other members of the crews of the trains and several passengers were jostled about the cars, and it was reported that a postal clerk and two passengers received injuries. The fireman was the only victim of the wreck who was brought here, however. He was taken to Providence Hospital. The accident caused a delay to the trains between here and points north of Patuxent station, the New York trains reaching here more than two hours late. The accommodation train that figured in the accident left here this morning at 5 o'clock and was scheduled to pass a northbound freight train at the Patuxent tower. The freight train took the siding, but, it is stated, the engineer pulled his engine about ten feet too far north, and the side of it was struck by the engine drawing the passenger train.

The scene of the accident is the end of

The scene of the accident is the end of four tracks, two passenger and two freight, and the freight train was to go upon the tracks that are used by both freight and passenger trains. Had the accident happened at some other point this side of Patuxent tower traffic on the road would probably not have been interrupted. The noise caused by the accident and the blowing off of the steam attracted the attention of the people living near the tower. Many of them hurried to the scene, expecting that their services might be needed to care for the dead or injurd. They were happily surprised to find that the casualties were slight.
